

## Thank You Lord for Your Abundant TLC for Evance

What a difficult journey this young man has been on! Since our Thuchila Hope Center staff guy, Francis, discovered him at his home, critically ill and even unable to walk nearly two months ago, Evance has been battling to regain his health and strength, thankfully, with the help of some of the best doctors in Malawi. Initially, they found it was a serious infection that was weakening him and inhibiting his ability to digest food and even breathe properly. After intensive treatment in the hospital for nearly a week, he was released with his systems all functioning, only to return a few days later because of severe hip pain. At that point, it was discovered that the infection had actually been coming from his hip bone, a more challenging situation than had originally been diagnosed. As a result, he was transferred to Beit Cure, a first world international hospital that treats children suffering from orthopedic problems, with no charge. We are so very thankful for this amazing charity as Evance's bills over the past months have grown huge, as you can well imagine. The doctors have now done a biopsy of the area of concern and in 2 weeks, we will know the results. Updates will be forthcoming in the next newsletter. Thank you for praying with us that God will complete Evance's healing and that soon he will be back at school with his friends!

Evance, his mother, and Francis

It takes a lot of food to feed 400 children daily

Always kids to sponsor

## Overwhelmed with Praise!

What a joy it's been to see the amazing response to the September newsletter story about the housing needs of some of our most needy families! Over \$4,000 has been donated to buy materials for them to replace their crumbling houses and roofs with strong new materials that will keep them safe and dry during the rapidly approaching rainy season. Many thanks to our Operations Manager, Lyson, who has been working tirelessly to gather the necessary materials all over town and throughout the villages. The recipients are beyond grateful for all the generosity that has been directed towards them!

**Thank you!**

Gathering materials. Helping our village friends help themselves.

### Prayer Requests:

- Please pray for Evance for complete healing and praising God for what He has already done for this boy.
- Pray the rains come soon so there will be an early harvest and the rains will be the right amount this year without flooding like last year.

### **Miqlat is inviting you . . .**

To help us provide the children with a special Christmas gift again this year. We would love to give each child in the program a new (gently used) jacket. It's something very few families can afford on their own, so most children go through the winter with nothing to give them warmth, or just a thin cotton chitenje cloth to wrap around their shoulders. If you would like to send an extra \$20 (or whatever you can manage) with your next regular donation, it will buy your child something cozy to get them through the winter. (Please label it "Christmas gift".) If you would like to donate a bit extra, it will help to provide gifts for our currently unsponsored children. Thanks for whatever you can do!
